**LOOKING GLASS & PICTURE FRAME  
MANUFACTORY.**

**FAIRBANKS & HOLLAND,**  
PEARSON'S MILLS,.....BANGOR.

THE public are informed that we have established a manufactory for making **LOOKING GLASS, PORTRAIT AND PICTURE FRAMES** of all sizes and varieties. We have set up suitable machinery in all the branches of the business by which much labor is saved and the price of these rich and beautiful articles is greatly reduced, so that a fine article may now take the place of coarse and ill looking ones, and at as low a price.

Large and elegant O. G. and bevel frames, and small bevel frames with rich mahogany veneer are manufactured in such quantities that we are prepared to answer, at short notice, all orders at

**WHOLESALE,**

by the hundred or thousand, at prices that cannot but be satisfactory to dealers.

[J] New frames fitted to Portraits. Looking Glasses or Pictures, or new glasses furnished and fitted to old frames.

Any interest said bankrupt may have in certain property mortgaged to Joel Wellington.

\* Dealers supplied with frames either with or without glasses.

N. B. Orders respectfully solicited for single frames or by the dozen; and as this is a new branch of Home Manufacture to any extent, we trust the public will be ready to encourage and support the enterprise.

For the convenience of our city friends, orders for frames of any kind may be left at the Hardware store of DAVID MOSMAN on East Market Place.

Bangor, July 26, 1843—d&w

**NEW ARRANGEMENT.**

Oct. 18.

Old Newspapers for sale at this office

## MISCELLANEOUS.

From the New York Tribune.

### THE RUBBER;

OR MAT'S THIRD AND LAST GAME.

TUNE—Miss Bailey.

Our little Mat, from Kinderhook, no friend to country quarters,

Resolved to rule a second time, or dangle in his garters;

Though Lindenwoold grew cabbages, he got but little off it;

Twixt public crib and private crib, there's a dif-

ference in the profit!

Great difference in the profit!

Ye office-seeking sycophants, now ready let each one be;

The Argus, with its hundred eyes, looked every way for Sunday;

Mat sang all tunes in double voice—one bass, the other treble;

While in the Senate, Silas Wright was playing second fiddle!

Wright playing second fiddle!

Importers and our factories Mat wished in good condition,

And Slavery, 'twas a sacred thing, and so was Abolition!

He was for Union and Repeal—"more no than yes"—the Treaty;

He loved Protection and Free Trade, Sub-Treasury Notes and Specie!

All salaries paid in specie!

Then Agriculture—he revered it! himself a happy Tiller!

At first, he bought his hay and oats, but past two years was seller;

Had reclaimed twelve acres bog—in the useful was their true vassal

But for him to talk to farmers, was carrying coals to Newcastle!

Mat carrying coals to Newcastle!

And oh! the generous rival:—Calhoun, altho' Quixotic,

Was

also requested him, in the same document, to remain here till such time as the views of the English Government were known regarding them.

Now what is surprising in this affair is that not a Frenchman or American were in the least aware that they were so near having their throats cut by an infuriated mob of savages.— And truth compels us to say that we should not have been aware of the fact had it not appeared in their memorial; for we have since made numerous inquiries, and find nothing to confirm it.

Doubtless Commodore Nichols has some peculiar views which he wishes to carry into effect, and a document of this kind is well calculated to mislead his Government as to the real state of the Island. That he has some such object in view we are convinced, or he would not have countenanced such sheer perversions of truth.

## DAILY WHIG AND COURIER.

JOHN S. SAYWARD, Editor.

FRIDAY, NOVEMBER 10, 1843.

FOR PRESIDENT,  
**HENRY CLAY,**  
OF KENTUCKY.

WHIG NOMINATIONS,  
FOR REPRESENTATIVES TO CONGRESS.

Election, Monday, Nov. 13.

Third Dist. LUTHER SEVERANCE  
Fourth Dist. FREEMAN H. MORSE.  
Fifth Dist. EBEN'R HUTCHINSON.  
Seventh Dist. THOMAS ROBINSON.

SEE FIRST PAGE.

The Portland Advertiser, in noticing, in a complimentary manner the call for a meeting here to take into consideration the subject of forming a mercantile association, suggests to the citizens of Portland the propriety of an organization, by means of a public meeting, for the purpose of promoting the business of that city, and as one means of accomplishing this, the editor suggests the following duties: "To search into our present condition in its details and causes—retrace our past experience—project and investigate new schemes—examine our relation to the surrounding country—make enquiries abroad—compare what is doing elsewhere with our means and resources here—consider our relation to the general business of the country—explore new channels of trade—examine new projects of manufacturers—find out where there are new customers—collect statistics and prepare estimates—study the operation of existing or projected legislation—try the disposition of our capitalists at home, and see what can be done to invite capital from abroad—and in all the possible ways, which a combined and laudable self interest and public concern would prompt, investigate our great question—the enlargement of the business of Portland, and the mode of effecting it."

The suggestions here made, although intended expressly for Portland, are of value here as furnishing pleasant work for some of our existing institutions, and as directing inquiry to matters of importance relative to the business of our city. The members of the Mechanic Association, and of the soon to be formed Mercantile Association, should bear these suggestions in mind, and set themselves at work on the points mentioned.

Whoever examines the progress of mechanical ingenuity in the United States within the last few years cannot fail to observe that a vast amount of mind has been directed to this department. And when we compare the improvements in this department with those in other pursuits we shall be astonished at the vast preponderance in favor of mechanical pursuits.— To speak closely within the boundaries of truth of the progress of American ingenuity in mechanics seems very much like unwarrantable boasting.

To American ingenuity the world is indebted for the Quadrant invented by Godfrey a Philadelphian. The cotton Gin of Whitney that has conferred such lasting benefits on the country has been followed by the rapid invention of machinery for manufacturing cotton goods until it is not excelled by that of any people on the globe. Cochran, a Vermonter, has given the world the modern Excavator that causes the mountain heights to bow with the level plain, that the speedy Fire-horse and his rattling train may pass over without detention or danger. Fulton gave the world a knowledge of applying steam to navigation. Whittemore, a Yankee, invented the machine for making card teeth. But we cannot stop to name our principal inventors.

Let us look across the big waters and we shall find the Quadrant in use—the best steam engines upon the rail roads of England France, Russia, Austria and Belgium may be seen those manufactured by Morris at Philadelphia—every where thundering along upon the track the power of American ingenuity. There too may be seen upon the unfinished roads the Yankee Excavator invading foreign soil. Our inventive workmen are employed in India and Egypt and Russia. Connecticut clocks strike the hour in familiar language to the laborer in England and Scotland, in Denmark and Norway! Our cotton goods are rapidly following to clothe them. Indeed without boasting this is a great country!"

It is something less than a year since, that a man, engaged to a good girl in this city, came into our office, as he intended to be absent some time, and ordered our daily paper left at the residence of his fair one, and paid for it in advance. An incident has just occurred, reminding us of the fact, and the plan is such a capital one for printers and lovers too, that we recommend the plan to others. We never knew a girl prove false or foolish who was thus treated.

We have received the fourth number of Mackenzie's New York Examiner. It is thoroughly opposed to Van Buren for the Presidency. This is its leading feature, and to this end a multitude of methods are adopted, and a strong paper is made up. Mr. Mackenzie has been an ardent supporter of Mr. Van Buren because he thought him a worthy patriot and lover of his country, and a well-wisher and well-doer to the people. A close study of recorded facts relative to the acts of Mr. Van Buren has satisfied him that he is a selfish, managing, political cheat, and unworthy the support of a free-people.— This conviction has been forced upon a mind strongly predisposed to reject the sorrowful conviction. But facts, so well attested—truth so potent, at length triumphed. To the presentation to the people, of the solid truths bearing so mightily against Van Buren, the Examiner is devoted. With this object in view, the editor says that subscriptions and donations from all parties will be thankfully received and discreetly applied to "root out Van Burenism, a weed more dangerous than the Canada Thistle or Deadly Nightshade."

A correspondent of the Examiner—an Irish Democrat, thus plainly speaks:

"A resident of the city of New York, and an observer of 'passing events,' the violence of affection, the unbounding zeal which the Van Buren clique, styling themselves par excellence, 'the democracy,' feel on certain occasions for our Irish citizens, has frequently excited my unqualified admiration. At such periods these men are earnest in depicting to our excited minds all the horrors of Tylerism, Calhounism, Johnsonism, and Cassism, assuring us that but for their own shining valor and exemplary perseverance we would have been long since excluded from the benefits of this free country. They are continually throwing the broad *Egis* of democracy around the Irish interest—continually periling their lives, their fortunes and their sacred honor in our behalf. They are, in a word, for ever imposing on us new obligations; and for all this they require—disinterested men!—merely our votes. This game is played pretty generally at present all over the Union—but no where does it prevail more extensively than in this city."

To test the great love of Mr. Van Buren for Irishmen, and repeal, let me take a case in point. Every conscientious Irishman will admit that the repeal question was to him a question in its importance far beyond any mere party matter that could come before him. Now sir, facts are stubborn things. Mr. Van Buren, who is said to be the very corner stone of democracy—whose name is the Shibboleth of the 'Old Hunkers'—when asked by the friends of repeal and humanity for his assistance to the cause, refused it. Yes, when that ex-president was solicited for his assistance, with that characteristic littleness and love of self which has always distinguished him, he replied that it would be impolitic! What a lively anticipation of the future!"

A gentleman writing to a friend in Boston, from Rio, alluding to the marriage of the Emperor on the 4th Sept. says:—The Princess I have not yet seen; she is about 25 years old, and said to be quite pretty; her miniature makes her a rare beauty. The Emperor is just 18, for we celebrated his 18th birth day when here last. He is a fine manly little fellow and resembles in picture his sister, the Queen of Portugal his sister, the Princess Francesca, was taken from here by the Prince de Joinville not long before our first arrival in July. Her dowry was \$100,000, of her own right, \$100,000 granted by the Senate, \$200,000 her brother, the Emperor, gave her to buy dresses. In all a pretty little fortune for a Prince even.

There was some little boasting over Kennebec way not long since about the size and weight of a turnip raised there. This has waked up the real grit of Penobscot and our friend Col. Ephraim Getchell of Carmel has left at our office an English turnip, of the globe species measuring 26 $\frac{1}{2}$  in circumference and weighing twelve pounds. If any body or any body's friends can do better than this, let him take the lead. We guess that we are at the head now.

Young children often suffer for the want of cold water. About half the crying and worrying of children may be remedied by keeping them supplied with cold water to drink. Young mothers should think of this.

The Calais Journal states that on Friday, 27th ult. Er. James Williams, a tailor of that village, with his son, a lad about fifteen years of age, was drowned while engaged in taking down the river a load of wood in a gondola. The body of Mr. Williams had been recovered, but not that of his son.

Mr. Stephen F. Hanscom, of Crawford, was a few days since kicked by his horse, while on a journey to Machias, and died of his wounds. He was 35 years of age and has left a numerous family to mourn his sudden death.

The Mechanic Association will meet at their hall this evening. A full attendance of the members and their families is earnestly requested.

The stream of emigration to the west into Missouri Territory and Iowa, was never so great as at present; boats and wagons are continually pushing on the mighty mass.

Fifteen more convicts escaped from the Missouri penitentiary, a few days ago, among whom were Buffalo Bill, Phelan, Pepper, Fitzgerald, and other old offenders.

What do the School Committee and the pupils of the schools about to occupy the new school house think about a neat dedication of it by a pleasant pick nick?

At the special election in Ward Seven on Wednesday, there were five votes cast, all of which were given for Ann Walker, Esq.

Snow to the depth of about an inch, fell at Boston on Tuesday night. About the same in this city, at the same time.

It is something less than a year since, that a man, engaged to a good girl in this city, came into our office, as he intended to be absent some time, and ordered our daily paper left at the residence of his fair one, and paid for it in advance. An incident has just occurred, reminding us of the fact, and the plan is such a capital one for printers and lovers too, that we recommend the plan to others. THOS. A. WHITE & CO.  
P. S. The hackneyed terms of "Cheap Store," and "Cheap Cash Store" are terms too frequently used by those corners and goers, and peddlars, to be earl for us. And believing that customers are after pleased with Cheap Goods than "Cheap Stores," we only have to say, that any article purchased at our store not being certainly as low as from any other store in the city, may be returned and the money refunded.

**LOZENGES! LOZENGES!**

**FALES'S Cough, Worm, Headache, and Diarrhea or Dysentery LOZENGES** are safe, certain and agreeable remedies for the diseases for which they are recommended.

Numerous, speedy and surprising cures have been effected by their use, hence their popularity.

Drvn's Oracle of Health, (Philadelphia) says that Fales's Medicated Lozenges are considered by those who have used them, to be far superior to Sherman's or any other introduced into that market.

**THE COUGH LOZENGES**

Are beneficial in all cases of common colds, hooping cough, asthmatic affections, inflammations of the throat and lungs; they are also particularly beneficial for the croup, and a very good substitute for the celebrated Hive Syrup, Cough Candies, Quince Cordials Pulmonary Balsams, &c.

**THE WORM LOZENGES**

Are a safe and sure remedy for Worms. Two or three is a dose for very small children, and five or six for larger ones.

**THE DYSENTERY LOZENGES**

Are a certain and agreeable remedy for Dysentery, Diarrhea and bowel complaints of children.— Full directions as to diet and manner of taking them, accompany each box.

**THE HEADACHE OR CAMPHOR**

Lozenges are beneficial in cases of nervous headache, in febrile affections of a typhus character. They are useful in Rheumatism and periosteum; also in eruptive diseases, to favor the eruption or bring it back when it has suddenly receded from the skin, as sometimes happens in measles and small pox.

For sale, Wholesale and Retail, by N. B. FOLSON, JR., Agent, and by the other Druggists in the city.

**FALES'S CYPRIAN HAIR TONIC,** FOR THE GROWTH, PRESERVATION AND RESTORATION OF THE HAIR.

No matter how bald a person may be, a growth of hair will be produced, and as naturally too, as the herbage grows on the plain, or the lily in the valley. This tonic is warranted to cleanse the hair from Dandruff, and every other accumulating substance. Is your hair dry and falling off?—the tonic will soon make it fit strongly in the head. Is your hair thin and bald?—the tonic is warrantied to effect desirous in thickening the hair, and covering the Bald Head in the second.

1. You will have remedial agents that restore the hair to a sound and healthy condition when it is covered, you will soon discover on the head a soft, and beautiful growth of young hair gradually increasing in length, till it becomes as your other hair was before you began to lose it.

\*The question is often asked, from what is the word Cyprus derived? Ans.—from the word Cyprus, the name of a beautiful island in the Mediterranean Sea.—The inhabitants of that fair island, are as well known for their fine glossy hair, as for their bright sparkling eyes. It is known, however, that any other people, except those of Cyprus, have never used this Tonic until its introduction into the United States.

For sale, wholesale and retail, by N. B. FOLSON, JR., and at retail by the other Druggists in the city.

May 16—Stawd wfm

**PATENT MILL WHEELS.**

**T**HE Subscriber having for a long time given his attention to the construction and operation of Water Wheels, has finally succeeded in the invention of two kinds of Wheels for which he has received Letters Patent from the Government of the United States.

These Wheels are simple in their construction, cheap and durable, are easily put in operation, and are not liable like most other wheels to get out of order, they are not obstructed by back water, when the head is not diminished thereby; and the same power and speed is obtained, with about one half the quantity of water usually applied to wheels now in general use.

A great number of these Wheels are now in operation and give in all cases entire satisfaction; and for further information respecting them the following gentlemen are referred to, all of whom have some of said wheels in operation: Jacob Drummond, James B. Fiske, Amos Davis and Leonard March, Esqrs., Messrs. Fiske & Norcross, Foster & Gilman, S. P. & H. Strickland, W. T. & H. Peirce & Co., Bangor; Hon. J. S. Little, Portland; Hon. John Oris, Hallowell; F. A. Butman, Esquire, Dixmont; Robert Treat, Geo. A. Peirce, Esquires, Frankfort; Daniel Dennett, Esq. Milo; Col. Henry Orne, Milton; Messrs. Fiske & Bridge, Milford; Ira Weddige, Esq. Oldtown; Capt. R. Fittz, Dedham; John Black and John M. Hale, Esqrs. Ellsworth; Messrs. A. Campbell & Co. Cherryfield; Daniel Harwood, Esq. Machias; Levi L. Lowell, Calais.

The above wheels are manufactured and for sale at the Iron Foundries of Messrs. HINCKLEY & EGERTY and FRANKLIN MUZZY & Co. in this city, who are furnished with a great variety of patterns, so that Wheels of any particular description, or adapted to any given head of water, can be furnished at short notice. They are also authorized to dispose of the Patent Right for the same.

**SAMUEL L. VALENTINE.**

Bangor, July 11, 1843—d and wif

**THE Firm of DICKINSON & MORRIS,** was dissolved in February last. Having reserved the STORE and WHARF where I have been for twenty years, I now tender my individual services as

**COMMISSION MERCHANT,** and hope by the industry and promptness so long and well known to retain all my old friends, and I do assure them, one and all, that nothing on my part shall be neglected to promote the interests of those who may see fit to entrust business to my care.

I have the same facilities for transacting business of every kind that I had whilst the late firm existed.

**PAGE'S VEGETABLE SYRUP**

FOR FEMALES, ENCEINTE.

**THE** following gentlemen are the authorised

agents for selling the above mentioned vulner-

able medicine,—a medicine worthy the confidence of

the public, and should be used by every female about

to become a mother. It is invaluable in reliev-

ing the pains of lying-in women, as has been proved by

hundreds of ladies who have used it, and by many

physicians who prescribe it in their practice. There

is nothing deleterious in its composition, and the

most delicate female in any condition may take it

with perfect safety. The price of it is nearly

as much as is saved by the mother

getting up, and recovering her strength so as to

be able to dismiss her nurse on to two weeks sooner

than in ordinary cases. All persons wishing for fur-

ther information respecting it, are referred
